Owners Corporation Plan No. PS 702780G

8 Daly Street, South Yarra

Re. Use of Spa

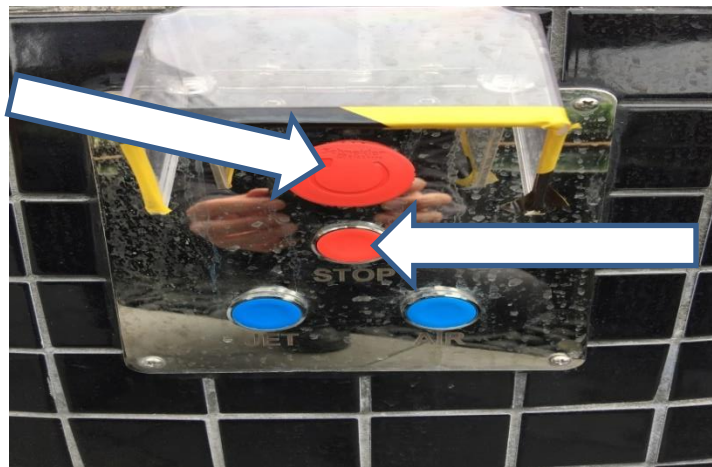

---

The Emergency Stop button is located directly above the Stop button which turns off the Jets and Blowers. When you push the Emergency Stop button to stop the Jets and Blowers (instead of the normal stop button) it shuts down the System in the Pool Pump Room and the Jets and Blowers will no longer operate.

In order to get the Jets and Blowers working, we have to reset the Jets and Blowers in the Pool Pump Room.

We request that you refrain from pushing the emergency stop button otherwise; the spa cannot be used until the facility manager access to the pool room to reset the jets and blowers in the pool pump room during the office hours from 7.30 am to 4.00 pm.

Emergency Button  
(紧急停止按钮)

Stop Button  
(停止开关)

亲爱的业主你们好，紧急停止按钮会紧急停止水花发射的发动机。当我们按动紧急停止按钮的时候，整个系统会自动停止，这样这个 SPA 就不会继续工作。为了让系统重新恢复工作，大楼经理必须去设施房间去重新启动系统，这样会给大楼经理和业主的使用造成不必要的麻烦。希望大家不要按动紧急停止按钮，当我们不需要水花发射的时候，我们需要按动停止开关（而不是紧急停止按钮）谢谢大家合作。

Sherry Li
