

## Discount Electricity Supply for Malvern Hill Apartment Residents

WINenergy has been contracted to implement an embedded electricity network at 14 Elizabeth Street, Malvern. This initiative allows residents to purchase discounted electricity under the standing retail tariff in the area.

Some of the key benefits to Owners/Tenants include:

- **Connection of electricity supply**  
Your apartment is already connected to the embedded network which means the process of connection to your premise can be quick and easy.
- **No lock in contracts**  
There are no contracts with WINenergy so if you decide to purchase from a market retailer there will be no penalties or termination fees.
- **Improved billing services**  
Your newly installed interval meter is read monthly to generate bills from actual meter reads only. NO MORE ESTIMATED READS.
- **Buying Power - exclusive to Malvern Hill Apartment Tenants**  
As a resident you will not only enjoy the benefits of bulk energy purchase but also cut down time spent in negotiating tedious energy contracts.

WINenergy is not a retailer but a facilitator of this bulk purchase initiative and operates similar sites throughout Australia. You can decide to purchase from a market retailer at anytime, contact WINenergy to discuss your options.

Enjoy the benefits of bulk purchasing, complete the attached agreement form and return via fax to 9832 0011 or connect online at [www.winenergy.com.au](http://www.winenergy.com.au)

Should you need further assistance please contact the WINenergy customer service team on **1300 791 970** Monday – Friday 8.30am to 5.30pm or email us at [sales@WINenergy.com.au](mailto:sales@WINenergy.com.au)

Yours Sincerely,

Customer Service Team

### **WINENERGY DISCONNECTION – 2nd January 2013**

**Electricity supply to your apartment will be disconnected on the 19th of December. Please ensure you contact WINenergy before then to ensure continued power.**
